

The Ohio Christian University Business Innovation Center (OCUBIC) is more than just Class A office space for start-up businesses. The OCUBIC is a collaborative environment where businesses can rely on each other for shared services and advice on how they can best respectively serve their individual customers. We are housed within the Robert W. Plaster Free Enterprise Center on the main Campus of Ohio Christian University. The Center also houses the OCU School of Business and Government and the offices of Pickaway County's economic development entity, the Pickaway Progress Partnership (P3).

The OCUBIC's concept of collaboration among businesses is also aided by the generosity of our many Sponsors that offer free professional advice, services and financial support for the operation of the center.

OCUBIC Amenities include: continuing education seminars and presentations, hi-speed internet connectivity, professional meeting and training space, daily "hot-spot" cubicles, co-sharing work spaces in enclosed offices.

If you are interested in becoming a part of the OCUBIC Business Community, tell us a little about yourself and your business. Please fill out the questionnaire below and an OCUBIC professional will be in touch with you to arrange a tour or to answer any of your questions.
